

Logistics Manager with an engaging leadership profile

The company is a mid-sized operation with facilities and offices in the western part of Denmark. The portfolio is focused on FMCG products in private label and in own brand.

Production and trading partners are European based and placed on different locations. The senior management is highly skilled with an international outlook and the company has a great reputation.

To assist the company in reaching their high ambitions, this new role is established to strengthen the execution power in the running operation as well as the implementation of business intelligence systems.

Competences

- Transport and Freight insight.
- Trade and customs clearance.
- People manager with great execution skills.
- Data and E insight transforming running operation into S.O.P.
- Ambitious and result oriented

Profile

You have a great track record delivering results by heading a small department with Freight and Transportation services internationally and overseas.

As a Manager, your employees are giving you high ratings as an engaging and highly professional leader.

Besides running the daily operation, you use your ability to observe, examine and alter daily operations which contributes to continuous improvement and ensures, that your company stays ahead.

As a person, you are easy going with a sense of humor. You have a positive mindset and you treat your colleagues and stakeholders with respect.
