Senior Manager, Supply Chain – with leadership skills

Do you have a good track record in Supply Chain Management, and do you find your motivation within optimizing the Supply Chain? and at the same time managing the purchases of all non-raw materials? Then join this new established position in a highly successful international company.

At Vega Salmon you will be leading your team and be a part of the Leadership Team. You will get the opportunity forming this new role in corporation with your COO and colleagues. Your initiatives will ensure that Vega Salmon increases competitive advantages in the market of highly processed salmon products to customers and consumers all over the world. A tailormade onboarding program will help you into your job.

The position is referring to the Chief Operating Officer.

Roles & Responsibilities:

- Analyzing the corporate supply chain and valuestream.
- Implement new effective and efficient processes and optimization initiatives in the supply chain
- Negotiating contracts with suppliers of non-raw materials
- Leading, inspiring and developing your team of 5 in the office and 16-20 clue collar in the warehouse, depending on season.
- Support colleagues across the production plant
- Following up on process costs

Results & Deliveries

- Lower working capital in the supply chain
- Cost optimization through annual agreement and framework agreements with suppliers
- Create an integrated supply chain with optimized processes.

Location and Travelling

- Flexible place of residence within daily driving range to the Plant in Handewitt, Germany
- Visits at preferred suppliers and relevant trade fairs

Culture

The culture is multinational with English as the company language. The leadership style is modern, respectful, direct, unformal and with a good sense of humor. Improvements are typically found in dialogue by talking with colleagues and partners. We work together and base our corporation on trust.
